Proposed NJ Sales Tax on Service Defeated

When the Limousine Association of New Jersey recently learned that New Jersey Governor Phil Murphy was proposing a sales tax be added back to limousine services, association leaders and lobbyists reacted immediately to prevent that from happening...and they prevailed. Confirmation was received late last month that the proposed sales tax on service is a dead issue that will not be taken up in the state legislature in 2020 or 2021.

This accomplishment follows LANJ's work in 2017 when the organization was instrumental in having the then law imposing sales and use tax on limousine transportation services repealed.

It also follows on the association's previous achievement of securing sales tax exemption on chauffeured transportation operators' purchase of vehicles (that have a seating capacity of not more than 14 passengers), vehicle parts and/or repair services.
